Thank you for your email Erin.

What are we thinking? Erin, as a former prosecutor you know well City Council's doesn't draft legislation, the state legislature does. We didn't sign onto anything. Additionally, we rarely vote positions on pending Bills in front of the state legislature, but I agree AB1250 should be added to our City Council agenda so our Council can state a position. I will raise the issue of adding it on Tuesday night. Kirsten Keith, who is serving as the City's mayor this year, ultimately is in charge of selecting what items are placed on our agenda. She traveling out of the country and won't be at the meeting Tuesday, so it may be a few weeks before we gain confirmation it will be added to an agenda in the future.

With best regards,
Ray

What are you all thinking? Look at Chicago and the perilous financial chaos they are facing due to ballooning pension costs. Why would we sign on for increased union pension obligations? It doesn't make sense.

I would also like to voice my strong objection to any thought of making Menlo Park a "sanctuary city". If someone is in our country illegally and commits a felony they should be convicted, serve their sentence and be deported immediately. As a former career prosecutor I find the idea of sanctuary cities to be misguided. I have personally handled many serious felony cases where the defendant committed a felony, was deported and was back in the county within months where he committed another serious crime. I cannot contemplate supporting any elected official that votes for such a measure nor any measure they put on the ballot.
